

## **How would you like to capitalize on turning your expertise into profits?**

As a high school educated, college dropout, never having a "real" job, Mario spent years as a dead-broke consultant wasting too much time chasing down (the wrong) clients, believing in my heart that the sky's the limit, but waking up every day feeling like because of his background, for him, the limits the sky.

Until he created a simple and easy to follow blueprint to attract prospects to him, with little effort using the tools & knowledge that he already had in his business at his everyday disposal!

Now, He's one of the most in-demand client acquisition strategists in the country, having clients now APPLY for his training, thank him for the opportunity to work with him, and sharing in the joy of creating the transformation in their business \*\*\* ( which he consistently and continues to do in 59 days or less )\*\*\* having helped his clients in total generate over \$1 million in new sales.

Raise your hand if you want this in your business!

It's my pleasure to welcome and introduce:

Mario Fachini 😊
